ATTIRE TIPS

- Closed-toed **shoes** are the most appropriate to wear for an interview and when meeting with clients. Shoes should be clean and shined.

- White or light colored **shirts** are the most appropriate choices.

- Your **tie** should contrast appropriately with your shirt.

- Wear **socks** and make sure they are in good shape and dark in color.

- **Skirts** should be knee length, not too tight, and cover your thighs when you are seated.

- **Blouses / tops** should be of moderate cut and professional style.

- Wear **minimal jewelry**. Avoid noisy bracelets that can distract the interviewer or client. **Be cognizant of body piercings** during all professional interactions.

- **ALWAYS dress professionally for an interview, unless otherwise specified.**
- **When in doubt about the dress code for a particular event, remember that it is better to be overdressed than underdressed!**

GROOMING TIPS

- **Hairstyles** should be neat and appropriate, nothing extreme or overdone. Men with **facial hair** should make sure it is neatly trimmed.
- **Clean hands and well-groomed nails** are an important part of your professional image. **Nail polish** shades should be soft, and polish should never be chipped.
- The safest advice for **fragrance** is not to wear any at all. If you do, go very light.
- Make sure to be **freshly showered/bathed**. Wear clothing that **covers tattoos**.
- Brush your teeth before the interview. If you use mints or chew gum, make sure they are out of your mouth before you interact with the interviewer.
