Dear Faculty and Staff Colleagues,

I hope you are looking forward to wrapping up the semester.

I am excited to share that the [Faculty Profiles site](#) has been updated with a new design. The new site now highlights Scholars@Bentley, additional faculty research related news, and a friendlier look and feel for our individual faculty profiles. Of note, the product that hosts profile and research data – Digital Measures – has been renamed “Faculty Success.”

To edit your profile, update your research, or report data, please visit faculty.bentley.edu and look for “Log into Faculty Success” under Quick Links. Please see below for a screen shot of the new page.
