

Appendix A: Campus and Community Resources for Title IX and Gender-Based Harassment and Discrimination Processes

Bentley University offers various resources for students, staff, and faculty seeking information or support regarding gender-based discrimination and harassment.

Bentley also acknowledges that each person experiences and responds in different ways, and there are a variety of formal and informal options for support. Please review the information regarding your options for support, assistance, and reporting so that you can make an informed decision based on personal needs. Your needs may change over time, so please know that you may choose to utilize different forms of response at different times.

If you have experienced an act of sex- or gender-based discrimination or harassment, our first concern is your safety and well-being. Bentley University offers some on-campus resources to assist students who have been affected by sexual violence or sexual misconduct. The greater Boston area also offers many additional services and support options. Bentley community members are encouraged to utilize any resource on or off-campus available to them.

- A. Accommodations for Students with Disabilities.** By federal law, a person with a disability is any person who: 1) has a physical or mental impairment; 2) has a record of such impairment; or 3) is regarded as having such an impairment, which substantially limits one or more major life activities such as self-care, walking, seeing, hearing, speaking, breathing, or learning. A student requesting an accommodation in regard to a Title IX investigation/adjudication process must follow the appropriate process for requesting an accommodation through the Office of Disability Services (located in Jennison Hall). Additionally, the Office of Disability Services can provide students with a comprehensive list of off-campus resources. The Office of Disability Services will make a determination regarding the request and notify the Office of Institutional Equity. Reasonable accommodations depend upon the nature and degree of severity of the documented disability. While the Americans with Disabilities Act of 1990 requires that priority consideration be given to the specific methods requested by the student, it does not imply that a particular accommodation must be granted if it is deemed not reasonable and other suitable techniques are available.
- B. Safety Concerns.** Any individual concerned for their immediate safety on campus can contact University Police at 781-891-3131, and if off-campus, should contact the local police via 911.

- C. The Bentley Care Team:** Is a group of professionals from various departments across campus who are available to provide support, guidance, or feedback to students responding to allegations of sexual misconduct. They can help connect students to appropriate resources, both on and off-campus, when mental, emotional, academic, or physical well-being is impacted. If you are interested in utilizing the support of the Care Team, please visit www.bentley.edu/bentley-cares to submit a Care report or call the Care Team case manager at 781.216.7115.

More information about Human Resources and the EAP can be found at <https://www.bentley.edu/offices/human-resources>, or by calling 781.891.3427. The Human Resources offices are located in Rauch 201.

SANE (Sexual Assault Nurse Examiners)

SANE (sexual assault nurse examiners) are registered nurses and nurse practitioners who have completed specialized training to assist sexual assault victims. They perform the pelvic exams and collect all forensic evidence (think CSI). SANE nurses are available at only specific hospital emergency rooms. The evidence collected is sealed in Massachusetts evidence collection kits (rape kits) and sent to a crime lab for evaluation. The SANE nurse records the victim's account of the assault and can testify at any legal proceedings. Additionally, the kits can remain confidential and are released to the police only at the victim's request.

Both the Boston Police Crime Lab and the State Police Crime Lab report that SANE nurses gather better evidence than non-SANE nurses. Also, having one person maintain control of all of the rape kit evidence before it gets to the lab reduces any chance of errors and makes prosecution of the perpetrator easier. The Massachusetts Department of Health reports that when a SANE nurse is utilized, a guilty verdict is returned 95 to 100 percent of the time.
