

How services are covered

These are partial lists of covered services. For PPO HSA plans, this information applies only to in-network services; most out-of-network services are subject to the annual deductible and out-of-network coinsurance.

Deductible, then cost sharing or no charge¹

- Emergency services: ambulance, hospital emergency room
- All inpatient hospital services, including inpatient maternity
- Diagnostic tests, including lab tests, MRIs and X-rays
- Treatments and therapeutic procedures, including day surgery; allergy treatments; dialysis; and occupational, speech and physical therapy
- Consultations and exams for illness or injuries with PCP, specialist, or urgent care facility
- Routine eye and hearing exams
- Chiropractic and acupuncture treatment
- Outpatient behavioral health and substance use treatment services
- Prescription drugs²

No charge

- Adult and child well visits
- Preventive tests and services that fall under the federal Affordable Care Act³
- Routine prenatal visits, fetal ultrasounds, nursery and postnatal visits

¹ After you meet the annual deductible, these services may be covered at no charge, or you may need to pay additional cost sharing (i.e., copayments or coinsurance). Also, the deductible may not apply to all of these services on all plans. You may need to pay copayments or coinsurance instead. Be sure to check the plan Schedule of Benefits for specifics.

² The deductible will not apply to certain preventive medications if your plan includes the Preventive Drug Benefit.

Definitions

Deductible: A set amount of money you pay out of your own pocket for certain covered services. If you have a \$2,000 annual deductible, for example, you will have to pay \$2,000 worth of charges before Harvard Pilgrim helps pay. Copayments and coinsurance do not count toward your deductible.

Coinsurance: A fixed percentage of costs you pay for covered services. For example, you may have to pay 20% of a provider's bill for your care, while Harvard Pilgrim pays 80%. Coinsurance is usually something you pay after you have paid your full annual deductible.

Copayment: A flat dollar amount you pay for certain services on your plan. You may have different copayments for different services (e.g., primary care visits, specialist visits and prescription drugs). Copayments are normally due when you have your appointment or pick up prescriptions at the pharmacy.

Cost sharing: Cost sharing is what you pay for specific health care services (e.g., office visits, X-rays and prescriptions). Coinsurance, copayments and deductibles are all examples of cost sharing.

How the deductible works

Here's an example: You visit your PCP's office because you're injured, and your PCP sends you for an X-ray.

- The PCP office visit for your injury is subject to the deductible.
- The X-ray is subject to the deductible.

Activity Summary

This document includes details on services you received, any payment Harvard Pilgrim made to the provider and any amounts you may owe the provider. Your Activity Summary will be posted to your member account at www.harvardpilgrim.org.

If you have **not yet paid the full, annual deductible**

then you pay all charges for the office visit with your PCP and X-ray, up to the deductible amount.

If you have **already paid the full, annual deductible amount**

then you pay nothing for the office visit with your PCP and the X-ray

(assuming your plan does not have additional cost sharing).

In summary, you would be responsible for charges for the office visit with your PCP and the X-ray if you had not yet met your total deductible.
