General Management

The Management major equips students with the skills to make organizations run more effectively. A wide variety of courses are offered in fields that include organizational behavior and human resources management, diversity and inclusion, supply chain and operations management, innovation and project management, entrepreneurship, strategic management and corporate social responsibility. Students may elect to complete the General Management major or choose a concentration in a field within the discipline.

In addition to the specific major requirements described below, students must also complete the General Education Curriculum, and additional degree requirements for business majors, including the General Business Core, focused-course requirements, and additional electives.

This approach to the major offers maximum flexibility. In addition to the four required courses listed above, students take three Management electives, plus an additional elective in Management, Professional Sales or another business-related field. This option is best for students who wish to create their own area of focus or combine areas of specialization.
