<td></td>
</tr>
<tr>
<td>AC Elective</td>
<td>vary by course</td>
</tr>
</tbody>
</table>

CPR= co- or prerequisite

- AC 311 is a prerequisite or corequisite for many courses in the major and is also one of the more difficult courses to master. Students who are considering an Accountancy major should take this course as soon as possible to help clarify their interest and ability in AC.

- Accounting elective choices are: AC 331 Government and Not for Profit Reporting, AC 332 Fraud Examination, AC 381 International Accounting, AC 412 Advanced Cost Management, AC421 Internship, AC 440 Advanced Design and Control of Data and Systems, AC450 Advanced Federal Taxation, AC 470 Financial Statement Auditing or AC 472 Internal Auditing, or AC 475 Information Technology Auditing Principles and Practice.

- Students should avoid taking GB 320 and AC 412 in the same semester, whenever possible, given that both courses often require a significant time commitment. In addition, it is not recommended that students take GB 320 concurrently with AC 340 due to the project nature of both courses.
