

New Employee's Checklist for Onboarding

This checklist is designed to assist you in orienting yourself to Bentley and to your department. Your onboarding at Bentley begins during the recruitment process, and may continue well into your first year. Your Manager also has a Checklist to follow to make onboarding for you that much easier, and someone in the department will be available to help you through many of these steps. You will find Bentley employees to be helpful and responsive. If you have any questions about these steps, do not hesitate to ask your manager or contact your [HR Business Partner](#).
