

Construction Corner

Here is a snapshot of some of the projects that will be happening around campus this summer:

- **Collins Hall:** Phase I Renovation of Floors 6, 5, and 4.
- **Adamian:** Upgrade to exterior doors, card readers, and cameras.
- **LaCava:** Replacement of windows and addressment of waterproofing issues (south side, quad side).
- **Lindsay Hall:** Bathroom Renovation.
- **Library:** Roof Replacement.
- **Miller Hall:** Windows and door replacement; parking lot improvements (Lot#12).
- **Orchard Parking Deck:** undergoing scheduled maintenance.

Department Updates

From the Grounds Crew:

The Grounds team is working on the fields and grounds. As spring arrives, the crew will continue the spring cleanup and prepare the campus for Accepted Students Day.

From the Trades Crew:

The Trades Department includes carpenters, plumbers, electricians, a fire alarm technician, locksmith, night mechanic, and an HVAC technician. They all keep busy with service requests from the community, scheduled work orders, and special projects.

What's New with Facilities?

DuPont STOP Program

Our managers have started training of the DuPont STOP program. STOP is a safety training observation program designed to stop injuries by improving safety observations skills. It was started by DuPont and is used around the world.

Looking Ahead

The switch from heating to cooling will occur sometime in April as we monitor weather patterns and determine the optimal date. Notifications will be posted.

What is Facilities?

We are Construction & Planning, Trades, Grounds, Transportation, Building Services, Energy Management, Life Safety, Environmental Health & Safety, and Work Order Control. Our staff resides on Lower Campus in both the Maintenance Building and Dove Cote, but our workplace is the entire campus!
